The *NEW* entry point for our figure skating programs is Junior Prep. The skaters will be taught in a group format and will learn the basic principles of figure skating.

Our goal in the Junior Prep Program is to provide skaters with the skills needed to progress through our more advanced figure skating programs. In most cases, skaters come to the Junior Prep program having completed Canskate level 1, however this is not a mandatory requirement and your child may audition for our Junior Prep program at any time during the season.

If you have any questions regarding Junior Prep, we encourage you to contact our Director of Skating (Jessica Dodd) at programdirector@gpskate.com

To register, follow the links on our website www.gpskate.com or go directly to our registration site at <http://gpskate.uplifterinc.com>
